

PUBLICATION

Selected full papers based on oral presentations will be published after the conference in a peer reviewed journal.

The proceedings are entitled "Innovative monitoring techniques and modelling approaches for analysing hydrological processes in small basins" as part of the journal Advances in Geosciences (ADGEO). The guest editors are B. Schmalz, S. Dietrich, and J.L.M.P. de Lima.

Information for potential authors:

- As of 14 September 2018, authors can submit their contributions by using the online registration form on the ADGEO website: https://www.advances-in-geosciences.net/for_authors/submit_your_manuscript.html.

- See the Manuscript Preparation and Submission Guidelines on: https://www.advances-in-geosciences.net/for_authors/submit_your_manuscript.html

- During the registration process it is important that the correct special issue is selected.

- Every author has to pay his/her article processing charges by him-/ herself (~€36 net per page),

see:https://www.advances-in-geosciences.net/for_authors/article_processing_charges.html

- The deadline for submission is 31 October 2018.
